

In summary the inflatable iGates® advantages:

- 1) Eliminate and reduce injuries and pain.
- 2) Eliminate unnecessary blocking.
- 3) Provide unsurpassed holding power in any snow condition, drilled holes will not wear-out, no wedges are needed at any time.
- 4) Completely eliminate flags.
- 5) iGates® assure high visibility with an enlarged visual profile.
- 6) Inflatable gates offer superior wind stability.
- 7) iGates® create uniformity and fairness by providing '**One type of gate for all**' from the youngest racer all the way to champions and master racers.
- 8) Lightweight gate handling and gate removal from the snow.
- 9) Help with ease of traveling, a huge plus for coaches and service crews, as well as substantially reducing costs!
- 10) Advertising sleeves strategically placed on the gates, are highly visible for spectators and media/TV. **Racers deserve the latest safety innovations available.**

Q: Are the above advantages enough to substantially improve racing?

To set a new course for the future. A better idea. Now I present the solution. It is up to you officials to make it a reality
